Winshuttle Training for your team

Tailor your own 2-3 day training course to teach basic and advanced Developer users as well as Runner users to utilize TRANSACTION and optionally Query plus CONNECT for your administrators. The training can be composed exactly according to you needs with exercises that are related to the SAP transactions you want to automate.

We will provide 1 or 2 teachers depending on your team size. Optionally you can provide one experienced user who can assist our teacher during exercises. Below is a sample agenda for 3 days but you can compose your own agenda.
